

# Professional Unit Converter

Convert between 18+ categories of units with precision and ease. From length and weight to temperature and energy - we've got you covered.

**18+**

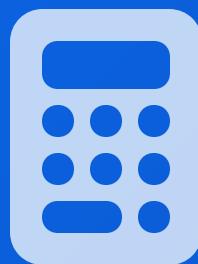

Categories

**200+**

Units

**100%**

Accurate

## All Unit Converters

Choose from our comprehensive collection of unit converters

## Length Converter

Convert between different units of length and distance

## Weight and Mass Converter

Convert between different units of weight and mass

## Temperature Converter

Convert between Celsius, Fahrenheit, Kelvin, and Rankine

## Volume Converter

Convert between different units of volume and capacity

## Area Converter

Convert between different units of area and surface

## Pressure Converter

Convert between different units of pressure

## Energy Converter

Convert between different units of energy and work

## Power Converter

Convert between different units of power

## Speed Converter

Convert between different units of speed and velocity

## Angle Converter

Convert between different units of angle measurement

## Time Converter

Convert between different units of time

## Data Storage Converter

Convert between different units of digital storage

## Force Converter

Convert between different units of force

## Fuel Consumption Converter

Convert between different units of fuel consumption

## Velocity - Angular Converter

Convert between different units of angular velocity

## Acceleration Converter

Convert between different units of acceleration

## Acceleration - Angular Converter

Convert between different units of angular acceleration

## Density Converter

Convert between different units of density

## Specific Volume Converter

Convert between different units of specific volume

## Torque Converter

Convert between different units of torque

## Flow Converter

Convert between different units of flow rate

## Luminance Converter

Convert between different units of luminance

## Luminous Intensity Converter

Convert between different units of luminous intensity

## Illumination Converter

Convert between different units of illumination

## Digital Image Resolution Converter

Convert between different units of digital image resolution

## Frequency Wavelength Converter

Convert between frequency and wavelength units

## Charge Converter

Convert between different units of electric charge

## Linear Charge Density Converter

Convert between different units of linear charge density

## Surface Charge Density Converter

Convert between different units of surface charge density

## Volume Charge Density Converter

Convert between different units of volume charge density

## Current Converter

Convert between different units of electric current

## Linear Current Density Converter

Convert between different units of linear current density

## Surface Current Density Converter

Convert between different units of surface current density

## Electric Field Strength Converter

Convert between different units of electric field strength

## Electric Potential Converter

Convert between different units of electric potential

## Electric Resistance Converter

Convert between different units of electric resistance

## Electric Resistivity Converter

Convert between different units of electric resistivity

## Electric Conductance Converter

Convert between different units of electric conductance

## Electric Conductivity Converter

Convert between different units of electric conductivity

## Electrostatic Capacitance Converter

Convert between different units of electrostatic capacitance

## Inductance Converter

Convert between different units of inductance

## Magnetomotive Force Converter

Convert between different units of magnetomotive force

## Magnetic Field Strength Converter

Convert between different units of magnetic field strength

## Magnetic Flux Converter

Convert between different units of magnetic flux

## Magnetic Flux Density Converter

Convert between different units of magnetic flux density

## Radiation Converter

Convert between different units of radiation

## Radiation-Activity Converter

Convert between different units of radiation activity

## Radiation-Exposure Converter

Convert between different units of radiation exposure

## Radiation-Absorbed Dose Converter

Convert between different units of radiation absorbed dose

## Prefixes Converter

Convert between different metric prefixes

## Data Transfer Converter

Convert between different units of data transfer rate

## Sound Converter

Convert between different units of sound measurement

## Typography Converter

Convert between different typography units

## Volume - Lumber Converter

Convert between different lumber volume units

# Popular Conversions

Quick access to the most commonly used unit conversions

### Centimeters to Inches

CM → INCH

### Kilograms to Pounds

KG → LB

### Celsius to Fahrenheit

CELSIUS → FAHRENHEIT

### Millimeters to Inches

MM → INCH

### Meters to Feet

M → FT

### Kilometers to Miles

KM → MILE

### Grams to Ounces

G → OZ

### Liters to Gallons

L → GALLON

### MPH to KPH

MPH → KMH

### Square Feet to Acres

SQ\_FT → ACRE

# Why Choose Unit Into?

Powerful features that make unit conversion simple and accurate

## Lightning Fast

Instant conversions with real-time calculations. No waiting, no delays.

## 100% Accurate

Precise mathematical formulas ensure perfect accuracy in every conversion.

## Mobile Friendly

Responsive design works perfectly on all devices - desktop, tablet, and mobile.

## 18+ Categories

Comprehensive coverage of all measurement categories you'll ever need.

## Easy Copy & Share

One-click copy results and share conversions with built-in tools.

## 100% Free

All features are completely free. No registration, no hidden costs.
